

Spreader Bars for Forklift

Spreader Bars for Forklift - Proudly operating ever since the year 1974, ELME Spreader AB is the largest independent spreader manufacturer all over the world. They have been a devoted maker of spreaders used for numerous applications such as the handling of containers, swap bodies and trailers.

Engineering is done in house by utilizing all the newest FEM tools and CAD systems. The ELME company now has more than 125 workers. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers across the world.

The ELME product collection offers spreaders utilized for various container and trailer handling operations. Some of their inventory include: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers as well as a huge range of attachments.

Production and manufacturing of ELME products are developed in highly automated purpose designed factory. In the year 2008, they made one thousand one hundred fifty spreaders by way of using quality components so as to guarantee reliability and excellent standards. Major characteristics of ELME comprise design simplicity, market feedback and ground-breaking modular spreader concept.
